Thread: [Group userbar](#)

Dredd - March 25, 2025, 12:01 am

Hi All,

I'm looking for someone to animate this and turn it into a userbar .gif, I'm not too bothered if you want to change and modernize it slightly.

In terms of animation just a slight cloud effect or something cool like that, nothing crazy just want something subtle.

Group Userbar size: 272x84px and 150k file size

Shoot me a pm with your price and well get a deal started.

Regards,

Dredd

While I can't do this, I love the style of this UB. Would be nice to see the effect cascading slowly throughout the faces in a kaleidoscope style.

Motusora - March 25, 2025, 7:54 am

cloud/smoke effect will make the userbar exceeds the file size limit .

i suggest the eyes opens and close, glowing eyes , animated veins .
