Hey everyone! ?

I'm new to the world of hacking and just starting to learn about gray hat practices?. These days a lot of things use digital form, that's where my interest in the world of hacking comes from, so I hope I chose the right place to get some knowledge and how to get started.??

I'm really excited to explore the field and gain some insights from all of you here. I've been reading up on security, vulnerabilities, and ethical hacking, and I'm eager to learn more and connect with like-minded people.?

Looking forward to being part of this community and getting new skills and knowledge from all of you! ?

What kind of learning style do you prefer such as ebooks, tutorial threads, videos, gamification, etc
Now you surprised me, because I don't know if this is some kind of test for a newbie? - no, I don't.
As for the way of learning I think that the tutorials and videos hit me the most, but also the gamification you mentioned. ?
