You can't give popularity without being upgraded. As for quick love, you'll need at least 10 bytes to do that. Once you acquire 10 bytes, click on the pink heart in the upper righthand corner of the post.

I would like 1k bytes because I have lost 400x this amount, if not more to my gambling addiction. I quit for good if I win.

QLed the thread and have previously already given you +pop.

Why wouldn't I want 1k bytes? It would be 1k more bytes than I have now!

Thanks for hosting this and good luck everyone!
