?The code can be redeemed worldwide but is valid for accounts with the country in India. If you are from another country, you must use VPN with India.

?Once a purchase or code redemption is made in an account and it is in "X" country, the account will remain in that country forever, even if it is changed to INDIA, the code will not work. The account must be in INDIA from the beginning or not have previous purchases/redemptions with another country.

?Activation region - comes with activation keys

IP is only needed to activate the keys; you will not need it in the future.

? Region: India
