Thread: [\[Mentorship\] Learn How I'm Earning \\$30,000-\\$50,000+/month via TikTok \[WorldWide\]](#)

Aithan - April 10, 2025, 9:11 pm

Hello to all HF members, hope everyone is having an amazing 2025 so far.

I've been away for a bit, but during this break I've been able to focus on something that has been amazing.

About 2 years ago, I discovered a way to start generating passive income through the use of the popular app known as TikTok.

Initially, I started earning about \$100-200/day with minimal effort.

But through constant use of the method & trial/error, I realized that there was potential to earn an insane amount daily with this.

Before I knew it, I was generating \$1000, 2000, even up to \$5000 in one single day.

This was months ago.

Fast forward to this day; I've perfected the strategy and I'm now able to earn anywhere from \$1000-2000+/day with the use of this method.

I still have days where I hit \$3-4k, but since I'm not going as hard as I did at the start, my earnings have started to slowly drop due to my own laziness.

Yet thankfully, I've been able to generate over \$1,100,000+ over the last 16 months which comes to be around \$60,000 per month.

This is about 95% profit. The remaining 5% goes towards automating for a smoother experience on my end.

So, why am I here now making this thread?

You see, TikTok is HUGE & is growing like crazy every single day.

I don't lose anything by sharing this opportunity with others.

In fact, I actually gain the ability to connect with other users who would be dedicated to building a TikTok earnings empire.

So I've decided to open up the gates where my online earnings journey first started, HF.

I'll be offering a 1 on 1 Mentorship program for anyone interested in learning how to start earning with the use of TikTok.

You will learn EVERYTHING about my journey to \$1,000,000+ in earnings with TikTok & I will help you setup your own stream of earnings.

Front end setup, back end setup, earnings model, recurring revenue, automation, every single step will be explained in 1 on 1 calls.

You will be also be added to our private community of TikTok earners that have similiar goals of making money with TikTok.

You're basically going to be spoon fed & taught everything I did to reach the stage I'm at.

Now I won't be offering this away for free. I'm looking to grow with you & create something that will continue to generate long-term.

So, I've decided to break it down into 10 available spots. This opportunity will be first come first serve.

Spot 1: \$2000 +50% of profits from each venture we complete together.

Spot 2-4: \$3000 +40% of profits from each venture we complete together.

Spot 5-10: \$3500 +50% of profits from each venture we complete together.

Now, you may be wondering if there are any requirements to earn with this? Yes, there are.

- Age 18+ & the ability to receive payments to your bank
- A computer & phone with Internet & TikTok Access
- Commitment to actually build something that generates income

Not sure if you've got openings for VC left, but I have a 7.4k following tiktok that I've used to build out a few discord servers and am well versed with tiktok posting and etiquette.

Would be more than happy to profit share in return for some live vouching / earnings reports for your sales thread.

I purchased this.

I've had a couple of calls with Aithan and everything he claims is legit. He verified his earnings with me and we had an introductory call. I haven't made any money just yet since we're still in the setup phase, however he did go through his backend setup and explained what exactly needs to be done to make money.

I will update in the future with earnings proof.

*update

No earnings yet because we're still building everything, but everything is going good and we're making a lot of progress.

Aithan is mentoring me at every step. I've had a few people ask if it's "easy" or if a lot of work is needed.

I think it's pretty easy as long as you have a basic understanding of tech and social media. Even if you don't that's what Aithan is there for. You do need to put in a decent amount of effort during the setup portion and even after because staying consistent is important.

Overall, I'm confident this will generate me income. Will post earnings once they start coming in.

HappyNa7ion - April 24, 2025, 9:20 pm

Why would you sell something like that for \$2000 if you generated the whopping \$1m+ over the last 2 years? No hard feelings, just curious. :)

Because I'm actually nearly charging 5k now and earning an extra 40% by partnering with my students.

They take on the workload, I provide my support and knowledge & we both earn.

Nor does it affect my current earnings in any way.

Fishscale - April 26, 2025, 7:39 pm

I have couple questions

Are the earnings from post views or tiktok shop or selling something?

Can it be saturated?

You take 40% of earnings doesnt tiktok also take like 20% i dont remember how much it was

As its the last spot i would maybe be interested in buying it but only if we could use MM

Red-Baron - April 28, 2025, 10:54 am

I just purchased the mentorship and completed my first call with Aithan. He transparently shared his

income and substantiated every claim. The conversation was highly professional—he acted like a true mentor, not the generic BS you find elsewhere. I'll update this post regularly as I progress on this journey.

Few questions?

Do you need to spend money on TikTok ads?

Do we sell products or services, such as black hat or white hat?

No requirements to spend money on TikTok Ads.

You're selling either product or services. Everything we do will be whitehat.

I go through everything with you from top to bottom, so you're not just figuring things out on your own.

Once you unlock TikTok traffic, the possibilities are endless.

You're not doing 100% of the work, I obviously help throughout the process to speed things up.

Yes you will be doing a majority of it though.

Was patiently waiting to see your updated posts, but haven't heard anything since your initial post?

Also, may i ask why you didn't use a contract for a deal of this magnitude? The 2 people who purchased this mentorship, neither one of you have opened contracts.. which doesn't really make sense to me. Why wouldn't you want open a contract when spending \$2k+

I normally don't entertain these type of threads, but with both users claiming they verified everything the OP said was indeed true, I'm giving the benefit of the doubt. But with no contracts, and no updates or earnings posted, what's going on??

For the students that you have at the moment, where you're splitting the profits with them, you should proactively ask if you can post earnings, etc. I am definitely interested in something like this, but I want to see some concrete proof from your buyers/students that its a working method, since I've been sold too many bogus mentorships in the past on HF. Both of those contracts have been marked as incomplete. What happened to the update in the upcoming days? It's been over a month since you mentioned this.

What happened to the user you allegedly gave the vouch copy to, the one who confirmed that he saw the proof of your \$1m+ earnings? His post is no longer on the thread? I can't lie, I almost purchased this.. which is odd, because I normally wouldn't entertain something like this without seeing some type of video proof of earnings.. but I was taking the word of the person who claimed they received a vouch copy. I've shown interest, and have posted on this thread multiple times.. which should of shown you I was serious about potentially purchasing the mentorship if it was legit.. I'm just not seeing anything to back up that it was/is legit. What happened??

Same, I'm also waiting for updates from the people who supposedly bought this mentorship already. Red Baron and I both got scammed by another user offering a mentorship in the past to build a proxy business. So after I heard Red Baron buying this mentorship as well, I was fairly concerned, but he was saying good things about OP (Aithan) via PM's and how this tiktok mentorship seems legit, but now Red Baron has been MIA. I was going to purchase this for sure and soon as Red Baron confirmed this was actually a legitiamte mentorship, but I guess the wait continues.

Baron was online June 30th. I wrote my post where I tagged you, him and Nugs on June 27th.. so he's just ignoring our questions purposely? I'm only asking to see proof from him, because he said he would show proof once he got the ball rolling. It takes a couple minutes to show earnings proof. I've shown my fair share of earnings proof while I've been on the site.

Do you know what happened to the user you gave the vouch copy to? Why was his post deleted?

I'm trying to give the method the benefit of the doubt, but despite inquiring multiples times and being reasonable patient.. there hasn't been anything to comfort my queries. I'm letting it be known that I'm interested in purchasing the method, I just want to ensure that everything is as you're saying.. as I've only seen the screenshots in the OP, and that's not enough to make me feel comfortable spending \$3.5k+ on a slot.. as there are some thing that just seem a little bit off. But how about this, since none of the buyers have shown earnings proof as they originally said they would, and the person you gave the vouch copy to deleted their post and review.. can you kindly show video proof of your \$1m earnings from within the app on your mobile, I think that will take away any doubt or question that's looming in the air.

You already confirmed that Red Baron is getting great results already, so would it be safe to assume you are also profiting off Red Barons first project, because in your original post, it says you would share in 40-50% of the first projects earnings. So I think if you can verify this and post earnings proof from Red barons project, it would entice a lot of new buyers for your mentorship program

"Im assuming that Nugs and Red Baron are starting their first projects with you, while sharing a portion of the profits with you, according to your original post. So since you are online more often on HF, are you able to clarify how much profit, the projects with Nugs and Red Baron have made you so far? Since you disclosing your own profits wouldn't be impeding on their privacy (Until they're ready to post their updates)"

You already confirmed that Red Baron is getting great results already, so would it be safe to assume you are also profiting off Red Barons first project, because in your original post, it says you would share in 40-50% of the first projects earnings. So I think if you can verify this and post earnings proof from Red barons project, it would entice a lot of new buyers for your mentorship program

I will wait for buyers to post their own results.

I will only post my own from my own projects.

I'm sure Barron will post soon with some results, as I mentioned before he is a bit busy with real life but getting good results already.

Okay that is fine, but are you saying Red Baron did, infact gain profit from this mentorship/method so far? You don't have the disclose the amount, but just confirming if Red Baron specifically made profit from this so far. Thank you

is this only based on country where tiktok shop is available?

Red-Baron - July 17, 2025, 2:34 pm

Okay so I am 2 months in,that's my experience:

Aithan is super communicative and his earnings are real. He's going though everything with you in detail but don't expect a blueprint. He gives a direction and advices but all in all you choose one thing you go for. It's definitely not simple and not short term..more mid to long term. One of my videos has 1.3mio views and my current revenue is still negative as I build something myself instead of choosing something pre made as beeing a developer. I definitely going the hard way and need a lot of patience. But my niche is still rising every year so it will pay out.

To be honest he gave an idea and I created something from it. But that's totally fine for me. We talk nearly daily and I am confident it will pay out at some time.

If you're not willing to invest time and a lot of patience, don't buy it.

Thanks for the update Red Baron. I know you mentioned you made money off this but the net amount is still in the negatives. Do you mind sharing some proof of the sales made so far? If that's something you'd be comfortable with? I'm sure it would also help people who are hesitant on buying at the moment because of lack of screenshot/picture proof from people other than the OP

Thanks for stepping up to write a honest review where you fellow buyers have not done so.

One of your videos got 1.3 million views but still didn't turn a profit. You mentioned you didn't take a pre-made, was it because it was expensive or something he upsells to you?

Or did he showed you where to get it free but it was simply too generic and widely available?

If you don't mind you could share what value he provides, that is worth the course price.

I have to say this price structure + commission is beyond smart.

For people starting out and trying to maintain on that platform, it is often a volume game and one person can only do so much content.

But with 10 people, it's different. Even getting commission from the people.

Aithan is a businessman indeed, whether a buyer fails or succeeds, it's both a win for him.

Does this have anything to do with tiktok shop or ewhoring?

Is there any investment required?

This does not involve TT or EW. Yes, I would recommend having an extra \$150-300 ready for tools.

Got some questions asking if I'm still earning with this, the answer is yes. It's still early today but should still clear \$1k+

wildgoosey - April 9, 2026, 7:23 pm

interested in this but also hesitant as baron and nugs never had any updated posts showing profitability. where are they at now are they still doing this ? Surley after nearly a year there must be some results we can see. Its alot to ask for without any seeing any concrete proof from other users

Nugs and Barron had their own real life things to do, but I am still in contact with both.

I'm sure if this was some sort of scam or misinformation they would have left a post by now.

Anyways, I do have students off-site that are earning consistently with this program. Maybe I'll ask them to join HF & leave their opinion.

Any questions you have, you can always PM me.

So after nearly a year, the only proof provided is from a new user with 11 posts and a single contract. I don't know. Everything looks pretty fishy to be honest.

I have no stake in the fight but if I had to guess, it probably takes more work than people were expecting and they probably just didn't do the work. Doesn't sound like a set & forget system from what I gleaned from chatting with him but he sounds like a straight shooter and knows what he's talking about.

People want something you do in 5 minutes a day and make \$5-10K+/month, lol; this feels like if you put in the work, you reap the rewards.

I could also be very wrong, I didn't buy it so this is just my \$0.02.

Where is the new user that you speak of? Michael has been on HF for 6 years...

I've also shown proof of earnings, the entire system, etc all via call.

I'm sure if there was something "fishy" going on, one of the many buyers would have posted by now.

Additionally, I've got other threads where I've charged \$3-5K for mentorship without having a single dispute.

Any questions, lmk.

But that's just it. None of the buyers have posted anything at all other than updates soon to come. So it either works and they're making money, or not and they never came back to update.

I have no stake in this I'm just curious from reading the threads. I personally wouldn't purchase something like this for the price without some kind of assurance or, actual reviews. Obviously nothing is guaranteed but to have nothing at all is interesting.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
