Thread: [I need an XMR miner](#)

Boomgy911 - April 11, 2025, 6:47 am

Hello, I need an xmr miner software so I can connect it to mutiple pcs that I own and use it to pool mine.

It's called XMRig. This isn't hard to find. Just be aware that you are highly unlikely to profit or even break even mining Monero.

Boomgy911 - April 11, 2025, 8:04 am

I want something that I can manage on my home pc. Something that can generate files that once executed mine monero on the victim's pc. Limerat has a XMR miner but I cant get it to work at all.

This contradicts your original post. You stated that you were using your own PCs.

Fallen XMR Miner, while being mainly written in golang, which typically has few detections, has at least 47/72 detections on the xmrig files. If OP could afford a decent crypter that might not be the end of it, but cryptojacking is basically dead.

Boomgy911 - April 11, 2025, 11:52 am

yeah I havent said everything in the post, my bad. Also thank you for your replies. Do you mind telling me some good crypters? And also if you could tell me how to bypass Shadow mode? I have some pc's at my school that have shadow defender and I require a admin password for the files to have admin privilages.

Still working on pushing an update that circumvents the new windows update however it will be up soon

I have installed fallen miner but I get error building server and in the server cmd it tells me:
address already in use

```
[2025-04-12 20:23:23.229] net HTTP API server failed to start.
```

```
[2025-04-12 20:23:23.230] [0.0.0.0:3333] listen error: "address already in use"
```

```
[2025-04-12 20:23:23.230] [:::3333] listen error: "address already in use"
```

```
[2025-04-12 20:23:25.900] net pool-url DNS error: "unknown node or service"
```

Can you help me please. I also wrote a message in your telegram support channel.

I would like a rat tool miner. I tried limerat but it doesnt work for me idk why I tried to fix it for one hour and I couldnt get it to work. Any other tips and suggestions are welcome.

logic420 - April 15, 2025, 10:44 pm

purecoder has a good miner from what ive heard
