Thread: [Introduction to forum](#)

Crystalcat - April 25, 2025, 4:36 pm

Hi

I'm currently year 10 and is looking for some skills on ways to make money online. And i was looking and the main way people make money here and online is ransomware. And i just came to ask how is this done and i know some terms with it but yes.

Thanks for any help i get or any advice

Changed your year of school, have you?

Don't crosspost. Don't discuss fraud and extortion. The Money tab has many moneymaking methods, many of them are sketchy but won't get you multiple felonies. I also don't know what you mean by 'here.'

Welcome to HackForums, Crystalcat!

But whatever you do, avoid the ransomware path — there are no winners in that game. I advise you to learn C++ instead, and focus on writing cybersecurity tools.

Wishing you the best. ?

Sorry I mis worded what i said. I am year 10 and a year away from year 11 for exams and I'm not sure what felonies are as they aren't here but doesn't sound good

Only a few countries do not have laws against hacking.

But I see you developer for a RAT which I thought was similar

[/quote]

He makes remote access software for ethical purposes.

I'm not an expert at all but I'm not sure your bio box is very whitehat hacker?

Always selling corporate accesses to most countries!

zoominfo given if can provide POF & a desire to buy the accesses
