Thread: [\[\\$10 \] Left Over Email Bomb Inbox Exploit \[Fixed Message , Not Custom Message \]](#)

Money- - April 25, 2025, 11:48 pm

This is a email bomb exploit/bug.

I will sell it in the form of a script where you will enter the target email you want to bomb and it will bomb it.

Please beware the emails are stacked until 100 emails and then proceed to create a new separate email such as the screenshot shown below.

The reason is because the email bombed message is fixed and email services considered it to be same and therefore group them together.

If it requires to be separate, the email subject needs to be different but this exploit has no control in changing the subjects of the email nor the contents.

That's why.

Email Service Tested :

1) Gmail.

You can provide me what email service you want to test with, I can test it for you.

Price : \$10

Crypto LTC.

Email Options :

1) No you can't modify the message or subject header. No! Is fixed!

2) No you can't spoof emails. Its all set and fixed. Enter target email and bomb! That's it.

TOS:

I held no responsibility with what you do with the exploit.

If there is any issues with the script you can let me know I can try to fix it.

Other than that, worse case the exploit is patched or some protection mechanism is in place that I will try to bypass it.

But if its patched then its patched. Nothing much I can do with it but I will try some bypass attempts on it.

dt21mlg - April 26, 2025, 2:35 pm

what email service platform is it on?

Money- - April 26, 2025, 7:16 pm

(Apr 26, 2025 02:35 PM)dt21mlg Wrote: [\[CITE\]](#) what email service platform is it on?

That will reveal the exploit ain't it? Its legit company of course that will go to inbox. I tested myself.

No it won't. How would it ? Simply by name it wont reveal nothing lol

NiNJAA - April 28, 2025, 12:49 pm

its bug or what ? unlimited inbox all mail service ? any demo ?

Money- - April 28, 2025, 5:27 pm

yes dm to test

69nk691 - May 1, 2025, 4:03 am

Hello if it can send unlimited , i can set some links inside or From name subject

Iam ready to buy for even higher price

Rootsaul1 is my TG

Spoofing email option?

Money- - June 27, 2025, 7:49 pm

(Jun 27, 2025 07:42 PM)3.3.3 Wrote: [\[CITE\]](#) Spoofing email option?
Unfortunately no. Just a simple email bomber fixed message , no modifications.

Enter target email and start that's it. Nothing special.

\$10 only.

Sure man , so you fine with just a spamming exploit.

Fixed message and content and subject header. Just for spamming purpose...

PatekPhilippe - December 11, 2025, 7:03 am

This still working??

Stanley - October 11, 2026, 1:28 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
