Get a Crypto Bonus with Oobit! ?

Hey everyone!

I'm using the Oobit app to pay with crypto anywhere that accepts Visa or Mastercard, and it's super easy. If you sign up with my referral link, we'll both get a crypto bonus! Here's how it works:

How to Claim Your Oobit Bonus (Step-by-Step):

1. Download the Oobit app with my link get.oobit.app/ogxknr

Available on both iOS and Android.

2. Register your account

Sign up with your email and create a password.

3. Verify your identity (KYC)

Complete the quick verification by uploading your ID and a selfie.

4. Enter my referral code/link

Use this code or link during sign-up or in the "Referral" section:

? OGXKNR

5. Top up your Oobit wallet with \$10 in crypto

Go to "Wallet" in the app.

Tap "Deposit" and choose your preferred cryptocurrency (e.g., USDT, BTC, ETH).

Copy your Oobit wallet address and send at least \$10 worth of crypto from your other wallet or exchange.

6. Make your first contactless payment ("Tap & Pay")

Use Oobit's Tap & Pay feature to pay at any store that accepts Visa/Mastercard, or online.

Make sure to do this within 14 days of signing up.

That's it!

Once you complete your first payment, we'll both receive a crypto bonus worth about \$10 (200,000 points, convertible to USDT) directly in the app.

You can keep using Oobit for fast, secure crypto payments and earn more rewards every time you pay.
