Thread: [Hiring 1 to 2 Online Marketers \\$500 to \\$1K/Month + Commission \(ProxyByte\)](#)

ProxyByte - April 29, 2025, 3:12 pm

? Hiring: 1–2 Internet Marketers for ProxyByte ?

I'm looking for 1–2 motivated individuals to help promote and grow my Residential Proxy Service — ProxyByte.

I've personally invested over \$30,000 into launching this project and fully own my own proxy network (not a reseller setup like many others). Now, I'm ready to build a small, reliable marketing team.

? Compensation:

\$500–\$1,000/month base pay

Commission on every sale you generate

Performance bonuses

Potential full-time salaried role as we grow

? You Should Be Comfortable With:

Discord marketing — marketplace posting, finding promo servers, direct sales

Telegram promotion — same as above

Social media outreach — Reddit, Facebook groups, Twitter (organic, not ads)

? How Commission Works:

Our system automatically tracks referrals and rewards commission on every customer you bring in.

Normally, commissions are credited as platform balance (usable only to buy proxies)

As a paid team member, you'll be able to cash out that balance in real fiat currency — exclusive to employees

? Extra Perks:

Steady monthly income with room for growth

Real money commission payouts

Early involvement in a growing business with long-term potential

This all sounds great but it's too bad I'm barely seeing this! I love marketing as a virtual assistant/affiliate
