Thread: [How to Make \\$5k+ in Crypto Without Trading](#)

RomanVanad - April 30, 2025, 1:59 am

I've tried trading, but I'm not seeing any real profits.
Is there a method to make money in crypto without the typical buy/sell trading?
Looking for something that actually works long-term.

I actually use a totally different method that doesn't involve trading or investing at all.
It's detailed, real, and has made me \$10k+ consistently.
I'm giving it out for free—just email me at [deleted]

There are lots of ways to earn crypto without trading through methods such as mining, staking, yield farming, receiving cryptocurrencies through airdrops, freelancing for crypto, playing Play-to-Earn games, or using crypto savings accounts... The most popular methods in my opinion.

Perhaps doing arbitrage. I see some people consistently getting small amounts of profit doing this which eventually adds up to a pretty big sum.
