Did this award get removed for bad taste or something? I remember it was a thing around the pandemic.

DemonAsylum - May 3, 2025, 1:05 pm

You mean the toilet paper (Asswipe) award?

<https://hackforums.net/myawards.php?awid=10>

It's still there. It has it's original name given it existed prior to becoming a covid related award, but it does have the covid description still. It was only a limited window of time to get it like most purchasable awards as well.

It's still there as you can see. It has it's original name though as it existed prior to being made into a covid related award. It was only a limited window of time to get it like most purchasable awards as well.

No it was like a biohazard symbol if I remember correctly.

Ahh yes, you're referring to "Corona Virus".

I'd link the page, but who has it isn't visible there so no point.

Yes, another example of an award that was put up to purchase for a limited time given that situation.

lol.

Well you got it if you got Covid for free if I remember. So I am thinking the people who got the award died or something?

Not sure what you're remembering, it's not something I recall. I have the award and I can see in my purchase history that it was a \$50 award. It was just another award that any of us could purchase for a period of time.

I recall the award looked like a biohazard symbol and was given out to people who tested positive for Covid at the time.

Oh never mind, I see it.

Yes, the award you're referring to is the one I have and am also referring to. It was a \$50 purchasable award for a limited amount of time.

Ok, Thanks for the info. I'm glad you're ok. I was thinking people died or something.

No problem and nope, nothing like that to my knowledge haha. Just X amount of people that bought the award is all. Probably more people than not who hadn't even had covid yet if they ended up getting it at all, myself included. It was only a few months into covid tbf though.

I'm ok, still recovering from everything, went to the hospital for drinking, caught covid at hospital, thought I was going to die for like a year. I got long covid symptoms and withdrawals from booze. It really sucks, but I improve a lot each month. I suppose a blessing, because I finally quit drinking for over 2 years and do not want to go through this shit anymore. My liver was really bad, but now is normal. I consider myself lucky.

[Orgy](#) has 4 of them, each with a great comment ?

Gifting awards used to be a big thing, not so much anymore though sadly. I'm still waiting for my chefs hat and beer ?
