Oh no! That's a shame.

Eran - May 13, 2025, 12:52 pm

Yikes.

You went above and beyond mate, don't forget that. Can't say I didn't see this coming as things have been stagnant for a while (not your fault).

You know what's best. Good luck with the sale. ./

This is the last thing that I thought I would see. Very disappointed. I also get it...

Dystortion - May 13, 2025, 4:40 pm

Wishing you luck brother <3

Brother I know you better than probably anyone here besides a few, so when I say please give this a week before making a final decision, you know why I'm saying it.

Ups and downs highs and lows, if you still feel the same in [7](#) days, then I'll back you 100%. You know I always have your back, but I'm not about to let you sell something that NOBODY is ever going to pay you what it's worth for. You've dumped thousands upon thousands into HF over the last year or two especially, and I'm not sure exactly what it was that pushed you to make this decision besides the obvious AI stuff, it could be a culmination of things that built up to this, who knows. All I do know is you're one of the few dudes I give a shit about here and really don't want to see Fallen fall if it doesn't have to.

You built something great. Give it [7](#) more days (a fitting amount). If then you feel the same like I said I'll back you all the way. Right now though I'm highly encouraging you otherwise.

After everything [7](#) has contributed to HF and its members, I honestly find it wild that most of you are just okay with this.

No trying to talk him out of it? No encouraging him? Nothing?

Shit, starting to understand why he feels the way he does when after he announces the potential sale of his primary group, all of ya'll (some of which call yourselves "friends" of his) just fold and accept it like [7](#) is some random and "oh thanks for your time bro good luck in the future!". Smh.

At the end of the day most people on here will act your friend but still be a random....it's a forum after all.

I am with you though, I'd like to try convince 7 to keep it.

Totally agree with you on this. I didn't even know how to respond to this. I mean I just joined and know him only for a few days.

Dude showed not all people online are bad and now he says he's done? Would love to do something I can to change how he feels.

In all reality, it's an internet forum - if he decides he wants to leave, it's completely up to him lol - I'm not trying to off-rail the original post but eventually everyone will make their last post on HackForums.

Smh. you act like [7](#) isn't a grown man who can make his own decisions? If he wants to sell, then let him sell.. it's more insulting to him that you think you have any power over him and his ability to make his own decisions, than it would be for you to just wish him well on his next endeavors.

GG fallen. All good things come to an end, that is the one reoccurring theme for every group on HF.

GG fallen. All good things come to an end, that is the one reoccurring theme for every group on HF. I understand how it can come off that way, but it's not that bro. He's older than me too on top of it, has nothing to do with me trying to make his decisions because I don't think he can or something. People who made posts have also removed them after I made mine for a reason, there's much more to it than this single thread.

Not to mention the actual shit happening in the background that HF doesn't see. Not gonna detail everything here obviously but if you knew everything, you most likely would've made a similar post for one of your good friends.

Regulus - May 14, 2025, 5:15 am

Really really sucks to see, on another note I completely understand your position as well.

I hope you'll stay around at least :/ <3

Best of luck with everything my man!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

If someone can enlighten me, I've been wanting to buy a group for a couple of months now, and I already have a solid plan for what to do with it. But what are the prices nowadays? When you buy a group, does it come with nothing (like colors, personalized "stars", etc.), or is there a fee to pay for all of that? Can someone explain what's up with groups on HF?

If you purchase Fallen it comes with 10 stars, 12 popularity, and two private SF. It is a maxed out group.

Also, let's not forget how you gambled away 400k Bytes (around \$700–\$800) last week in just 30 minutes like it was pocket change to you.
