Thread: [Website Clone](#)

SR66 - May 14, 2025, 7:08 am

I am looking for someone to clone a website for me. After the website is cloned I would need a couple of things changed on the website. It does not have to be perfect, as it will not be for the general public. If this is something your interested in, please pm me.

Which CMS is using the website? I could do the clone (design, etc)

Kalashnikov_AK47 - May 14, 2025, 11:47 am

Hit me up I can help with the cloning.

I'd be happy to help clone your website and make the tweaks you need. Just send me the site URL and a list of the changes you'd like, and I'll get you a working copy ASAP. Feel free to PM me and we can iron out the details.

Check out my signature for advanced web clones which is called MITM.

It works like that

Real visitor -> Astaroth -> Real website -> Astaroth -> Real visitor.

We can modify what ever u want on website, but so it still works 100% same as real one with all functions working including register login etc etc

UNKNOWN1 - May 23, 2025, 3:37 pm

I can do this, if only need to copy visual stuff will be cheaper than make functions work like login system and other stuff
