Thread: [Virgin looking to lose virginity - Who's up?](#)

The Joker - May 14, 2025, 7:38 pm

Hello folks!

So, I've seen people offering and renting signature spaces here. I also strongly believe the price or rent for such offerings purely depends on the activity of the user.

I mean, there's no use paying like \$100 to rent the signature space of someone who is a lurker and doesn't even post. Right?

What good is buying their signature space gonna do to you?

I was introduced to such a method a couple of hours back by a friend and I asked myself why not?

Who wouldn't want to make some money?

But my offer is a lot more different than others here.

As a matter of fact, I have never ever rented my signature space before.

Which means I'm still a virgin (In allowing someone else use my signature space).

So, the first person who gets to rent it would be the one to break my virginity lol.

Also, my PPD count (Posts per day actually tops everyone else in this forum). Even more than [Stanley](#) who's a bot and I don't see any reason why my PPD count should go down in the near future.

So, if you rent my signature space, you can be assured of better exposure than most others on this forum.

Asking price : 25,000 Bytes for 30 days. (Half of what Stanley asks)

Current PPD count of competitors :

Spoiler ([Click to View](#))

If you want posts in a targeted area of the forum, I can do that as well.

We can other discuss as well! PM me for discussion!

Link to Signature Market : [HERE](#)

Ps: The virgin and virginity refers to me not having rented my signature space before. Not what you thought you dirty fu*kers.

Have rented my signature for years now and its been as low as 300 bytes all the way to 1k bytes I allow it to be rented for around 5-7 days depending on price and I can say its a great way to share a area I just dont really use. Welcome to the market of signatures!

Spicymaruchannoodle - May 14, 2025, 7:51 pm

This is actually so interesting. I guess I learn something new everyday on here!

You can't really make money renting out your sig space.

diablospartan - May 15, 2025, 12:46 am

Well i think you need to post consistent on a daily base to be able to rent signature as people who want to rent it want to see you have some activity

RangoWorld - May 15, 2025, 12:50 am

Normally I see people get between 500 to 1K bytes for 7-10 days.

SIM-4716193 - May 15, 2025, 1:28 am

Dude, Your post title is such a clickbait.

I came in with different expectations.

Well, the plan is to get some Bytes for it ad then sell the Bytes. But I'd probably lose them to [Stanley](#) flipping lol.

Yeah! That's the point of renting a signature space. The more you post, the more exposure the advertised content or thread gets. So, you need to be active.

Yanix - May 15, 2025, 5:43 am

Your sig space remains untouched :p

Same here, 50,000 is asking a lot for a month. I don't think it matters if you are a virgin.

Asking price is not just for the virgin part. It's for the PPD which is more than [Stanley](#) 's and way more than others.

I guarantee that my PPD won't come down during the duration my signature rented for.

Ok well good luck, I suggest maybe you charge per week rather than per month. You have to realize most members who may want to rent your sig most likely do not even have 50,000 Bytes

available.

I would say do it for 14 weeks. I was told people like to have 2 weeks long instead of having to keep buying space.

you mean 14 days, IDK, It seems the issues is the 50,000 bytes not the time frame.

* You do not have enough ?ytes to purchase this signature space. *

The Joker - May 15, 2025, 8:37 pm

Reduced my asking price for 30 days by 50% based on feedbacks!

Let's see who takes it!

RangoWorld - May 16, 2025, 5:02 am
