Thread: [\[Get\] custom WordPress Plugins developed for you ||||| 7-30 days](#)

raynic - May 18, 2025, 6:27 am

Hello,

Need to develop a custom WordPress plugin for business or personal use?

Loquisoft is your go-to solution for plugin development. Specializes in creating feature-rich WordPress plugins designed to enhance your website's functionalities, streamline workflows, and deliver a seamless user experience. Whether you need a unique e-commerce integration, a custom booking system, a specialized tool for content management, and many other simple/ complex plugins, we follows the WordPress, PHP coding standards to bring your vision to life.

Plugins we can develop:

- A fully functioning plugin that you can install on WordPress
- A White-labeled WordPress plugin that resonates with your business or brand
- API integration [note: you will need to provide the API key for testing purposes]
- WordPress plugins that you may connect with an external API
- SEO custom made plugins
- Contact forms custom plugins
- Automation systems
- Chatbot development/integration
- AI content generator plugins/API
- Image generator plugins/API
- Leads collection plugins
- eCommerce plugins like custom WooCommerce extensions, invoice plugin
- Payment processors custom plugins [as we understand it can be frustrating that some payment processors neither support WordPress nor provide a plugin even though they have an API docs. We will make a custom plugin from this documentation].
- Blockchain plugins e.g. to receive crypto payments directly to your wallet address
- Podcast/audio distribution plugins
- Membership plugins and customizations
- CRM System API integration
- Order Invoice plugins
- Backup plugins
- Attachment plugins
- File Uploaders
- And More...

Additional services:

- Custom PHP script
- Fix your existing plugin errors

- Resolve website issues related to plugin misconfigurations and conflicts

Upon completion, we test each plugin thoroughly before final delivery to you. If needed, installation/activation assistance may be provided (in that case, we may request access to your WP Admin/ control panel).

Pricing:

- Plugins fully developed (new): from \$299 to \$10k depending on complexity
- PHP Scripts (not plugin): \$49 to \$199 per PHP script
- Fix Plugin Error(s): \$49 to \$199 per plugin/error

How to Order:

- Please contact us to discuss your plugin requirements for confirmation if it's within our development scope

[Chat with Us](#)

Our website: loquisoft.com

Turn Around Time:

- Depending on the complexity of your plugin requirements, we'd agree on the TAT with each customer on a case-by-case basis. For simple plugins, it can take anywhere between 3 to 7 business days. For a more robust projects or plugins that requires too many dependencies, multiple API endpoints and .PHP classes, and sub-directories, it may take 2-4 weeks.

Note: if you need a plugin that requires the use of an external API (e.g. some Twitter, Facebook content auto-poster apps, you must have the API account or app credentials already approved by Twitter, Facebook, Google Cloud, or Payment gateway, etc. as we cannot be responsible for that).

Payment Methods:

- Wise, Credit/Debit Card, Crypto (Bitcoin, Litecoin, Tron, etc.)

Refund policy: all services are provided accordingly. In the rare event that your order was not delivered after 30 days, you'll get a full refund.
