Thread: [Does anyone have any advice or learning paths for getting started in the world of hac](#)

H4wks - May 24, 2025, 8:44 am

Hello!

I'm new to hacking and would like to learn more about it. I wanted to know if anyone could help me or if there's a learning path, something that would help me get started from the most basic to the most complex.

Thank you very much!!

You're welcome, I've made this thread as I wish I had it when I started 6 years ago. If you have questions feel free to ask, don't forget to give as much details as possible if you open a thread to ask for something.

Learning hacking is not HARD, but it's a long process as there are a lot of things interconnected. It's a matter of time, and constancy.

Hope to see you around
