Thread: [Omni will ban you if you disagree with him](#)

hayesh2 - May 29, 2025, 9:08 am

Posting a funny Ai response in an Ai meme section is LQ?

The truth is I made a joke about trump a while back and this guy is a trump lunatic so what he'll do is hound you and find a reason to get you off the site. Be VERY careful in the politics section of the forum. After i made a post about donald, all of a sudden i need to increase my post quality or he'll have to close my account. Keep in mind this has never happened before and i have 500 threads.

I was being targeted because i disagree with him politcally. I can verify that i have spoken to people who have had the very same experience. So this isnt unique to me. Go look at some trust pilot and sitejabber reviews of hackforums if you guys want the real truth of what goes on here. He has banned tons of established accounts people with Groups and tons of awards just because he is a fascist. If you notcie you havent seen certain established people post in a very long time its because omni has likely banned them. and they can't warn the community about him, trust me READ the truspilot reviews and sitejabber reviews. Hf is also apparantly rife with scams but people dont know it because OMNI supresses those complaints.

And i know what you're thinking the people he banned were spammy idiots right? No omni has been banning established members who have invested \$1000 and 10+ years in the community right after they disagree with him.

It truly is sad what this place has become. Not because of the community but because of the owner take care guys.

Omniscient - May 29, 2025, 9:20 am

You're welcome.

Everyone can see from your post, you're a mental midget moron.

I left all your posts up, shared your stupid Trust Pilot review on the site myself. What a fucking tool this kid is.

He got closed for that TP review not because of politics but I admit 100% that I've closed accounts for being Marxist Cunts.

I literally made a thread about your TP review. What a nitwit.
