Thread: [Custom AI Chatbot Creation - Multi-Model/Local/API Support - Model Creation/Training](#)

AlienSoft - May 31, 2025, 4:56 am

? Revolutionize Customer Experience with a Custom AI Chatbot!

Are you aiming to elevate your customer service, boost user engagement, or deliver personalized experiences that truly connect*? Look no further — I offer Custom AI Chatbot development tailored to your exact needs.

I specialize in building smart, intuitive, and adaptable chatbots designed to work across industries and platforms and integrate with multiple AI models. Whether you're running an e-commerce business, a SaaS platform, or a community forum, I'll work closely with you to craft a chatbot that aligns with your goals and exceeds expectations.

? What I Offer

? Multi-Model Intelligence

Harness the power of multiple AI models — from lightweight local engines to advanced cloud APIs — for rich, responsive, and contextual conversations.

? Local + API Integration

Connect seamlessly with your systems, databases, and third-party services to provide instant and accurate responses.

? Versatile Assistants

Choose from specialized assistants for customer support, product navigation, appointment booking, and more — or let me build one from scratch!

? Why Choose Me

? Instant Responses with Local Models — No latency, no lag.

? Automation & Efficiency — Free up your time by handling repetitive queries.

? Personalized UX — Provide a tailored experience for every user.

? Scalability — Effortlessly grow with your business.

? Competitive Edge — Offer smarter, more human-like interactions.

? My Development Process

1. Discovery – I dive deep into your vision, audience, and industry to define your chatbot's role.

2. Design – A chatbot persona, tone, and flow that fits your brand like a glove.

3. Development – Built with the latest in multi-model AI, seamless integration, and robust logic.

4. Testing & Iteration – Rigorous QA cycles and refinements ensure rock-solid performance.

? Service Packages

? Base Package: AI Copilot

Plug-and-play solution pre-trained on broad domains Multiple Ollama Models already integrated.
Customizable tone, look, and language Scalable architecture

? *Price: \$175 (one-time, excludes future major updates)

? Mid-Tier: Customized Copilot

Tailored assistant tuned to your specific needs
Add-ons like sentiment analysis, NLP features, etc. Seamless API/system integration
? *Price: \$300 (one-time, excludes future major updates)
? Enterprise: Fully Custom Chatbot Solution
100% from-scratch development
Advanced features (machine learning, complex workflows, etc.) Priority support & dedicated point-of-contact
? *Custom pricing — contact me for a quote

I prefer working with USD/JPY but will accept EUR.

? Tech Stack & Capabilities

Languages: 35+ known programming languages including Java, Python, ASM, C/C++, and more

Frameworks: TensorFlow, PyTorch, Keras Deployment: Cloud, on-premise, hybrid

Integrations: REST APIs, webhooks, messaging platforms (Telegram, Slack, Discord, etc.)

? Updates & Source Access

Free minor updates

Major version upgrades: \$20 per update

* Custom builds include full source code — modify, adapt, and deploy as you wish.

? Let's Chat!

Can you make ai chatbot for adult niche? I am doing OFM and I need to funnel traffics from telegram to OF and I am using CUPID AI for that.

How much would it cost , write me details and good luck with sales

responded, and no the source code is handed over to you, i make each one separately from scratch.

ZeLizzard - June 1, 2025, 7:37 am

Gonna grab a custom chatbot, will update post/thread with quality/ect.. after delivery.

Really didn't think this post would be updated so quickly, was delivered his initial template while I waited, now has delivered what I would say an 80% complete product, the speed in which it is done is faster than I've seen with any development. Here is a SS of the current UI of my nearly finished version, I won't be posting more than the single picture: Spoiler [\(Click to View\)](#) - Will update when fully complete, pretty much at this stage with the source code I could complete myself probably but might as well see what sort of extra features/ect.. he will implement, however, am going to keep the contents of that private. GLWS

Completed the project tasked and even improved on the request - A+ vouch

AlienSoft - June 5, 2025, 12:55 am

Thank you, hope you enjoy! Available for work, just message me the project and watch it be built or enhanced in days from scratch.

Regege - June 10, 2025, 5:50 pm

Hi. Can you build a chatbot that can give clients the creds generated from a reselling panel every time a purchase happens? Dm me so we can go over details and exchange tg handles. Thanks

AlienSoft - June 11, 2025, 7:53 am

I am building AI specific chatbots/code assistance/image and video generation, if what you're desiring can be implemented via AI and an external bot/ai then possibly. I'll send a pm just incase.

Captain Pre - June 24, 2025, 12:02 pm

Shoot me your tele, I have something to discuss with you!

careculo - August 27, 2025, 1:31 pm

Seriously interested, for a larger project. Could you please send me your Session or TG ?
