Hey everyone,

I'm actively seeking experienced partners in iGaming to join me in launching BitStake, a next-gen crypto & CS2 casino platform, going live mid-June.

? Live Casino – Blackjack, Baccarat, Roulette

? In-House Games – Crash, Coinflip, Limbo, Mines, Roulette, Case Battles (In Development)

? Lottery System – Scheduled raffles with token burn mechanism

? Wager Race & Leaderboards – Custom reward structure for top players

? VIP & Loyalty Tiers – Rakeback, missions, reward cases

? Fully Featured Admin Panel – Bonus manager, user insights, analytics, game control

? KYC & AML – Integrated with Sumsub

? Crypto Payments – WalletConnect, Metamask, Phantom Wallet (Solana)

? Affiliate System – Tiered system with full tracking

? Modern UI/UX – Responsive and optimized for mobile/desktop (Next.js, Node.js, AWS)

? Roadmap Includes:

\$BSC Token launch on Solana (with staking & utility)

White-label B2B offering

Influencer + Twitch-style streaming integration
