Thread: [High Spec RDP \[256 GB | 28 Cores | 56 Logical Processors \]](#)

Money- - May 31, 2025, 7:58 pm

Would anyone be interested in this?

Maybe \$20 LTC? Good?

I have had this RDP since September 2024 Last year. So yea its been a long time and I decided to sell it off , no usage of it anymore.

Admin user role and privilege of course.

Do note though , its cracked.

How long would the RDP last? 1 month? I'm interested in it

No gurantee. I have had it since last year. Well what you trying to run on it? If its something heavy hopefully it dnt trigger them.

You can always have persistence access on it so you can come back later on.

I do actually have persistence access , so if they remove ur account or anything I'll regain access provided they dnt shut down the RDP completely. Which they will open back up later on for sure.
