Next.js, React.js, and many others to join me and move many projects further.

I seek someone who can do the job for 3-4 hours on the given job and deliver.

Payment 30-40\$ per project. For complex and promising projects maybe equity in the project is possible.

PM or open convo

Please DM me.

I have good experience with React, nextjs, tailwind css, MUI, nestjs, express, nodejs, nestjs and so on.

As well as I have good dev ops and cybersecurity experiences.

I would like to have a discussion about equirty projects.

Can do this easily however I want to know details. \$30/hourly is my rate and that's below developer average in my country but I can work with you.
