Thread: [Scratchcard BOGO sale!](#)

Omniscient - June 2, 2025, 12:28 pm

To celebrate our new theme let's have a BOGO scratchcard sale. Buy one, get one free. This only applies to the crypto purchased cards.

As an added bonus, if you spend \$100 or more in single invoice you'll get the Purple Gift award. Please note that you will get the award granted for every \$100 invoice even if you already have it.

<https://hackforums.net/scratchcard.php?action=buy>

Sales ends Sunday June 8th.

Enjoy and thanks.

The Joker - June 2, 2025, 12:36 pm

Well.. Good luck to those buying the big ones! Let's see if I could get my hands on one..

Secrets - June 2, 2025, 12:53 pm

Might dump few bucks on it, never have tried my luck gambling scratches. Put my VA disability money to use ?

sharn - June 2, 2025, 2:10 pm

Great event. I bought a \$100 scratchcard but only got a total of 20k Bytes back from the two scratchcards this time.

Still fun to play and I appreciate the BOGO offer.

Riggs - June 2, 2025, 2:30 pm

I just bought a \$100 one too. Best of luck all.

Plague - June 2, 2025, 4:52 pm

This is sweet. I've been wanting to grab a couple of these for fun.

Jamika - June 3, 2025, 10:57 am

Good luck for all gamblers in hackforums

Sam - June 3, 2025, 11:18 am

That's awesome. I would purchase some for myself but unfortunately I must be careful with my money as of now.

Money- - June 4, 2025, 6:38 pm

Hopsin - June 5, 2025, 6:55 am

Is there any chance that it can be done with bytes as well?

Yes, I'm likely going to end this on Sunday and tomorrow put up a banner about it so it's more obvious for the weekend.

Syndicate - June 6, 2025, 9:40 am

Unfortunately I got so shafted. I bought 2 \$10 cards. Only won 5k for all 4 cards sadly :(

Aadgjmptw72 - June 6, 2025, 10:49 am

Went ahead and did some math to calculate the average return from each \$10, \$25, & \$100 card based on infinite purchases.

\$100 card == 392 bytes per \$1

\$25 card == 226 bytes per \$1

\$10 card == 257.5 bytes per \$1

In conclusion, don't buy 4 \$25 cards - buy 10 \$10 cards.

Imk if my math is wrong

Wouldn't buying 1 x \$100 card be better than buying 10 x \$10 card in that case?

Yes, but my point was to show that the \$10 card is superior to the \$25 card - I was not commenting on the \$100 card.

Punisher - June 6, 2025, 11:39 am

I really like the astronaut graphic lol

Good luck everyone! ?

You win some and lose most on scratchcards usually.

(Jun 6, 2025 01:13 PM)Joel Wrote: [\[CITE\]](#) Doesn't Omni sell bulk bytes by DM anyway. Why buy the scratch cards

Chance at the big one. Multiple members have bought the \$100 card and gotten the 1m Bytes. BOGO sale increases your chances by giving you 2 cards for the price of one and as an added bonus there is an award.

Alos, I only sell Bytes in Bulk. Plenty of members want just 10k bytes.

I purchase the scratchcards because they are fun and there is an incentive of awards behind them. This sale was awesome, and although after selling the bytes to DemonAsylum I didn't get all my money back, but I got a full row of purple awards.

This BOGO sale was a success for me. Thanks a lot Omni.

Romeos - June 6, 2025, 1:44 pm

1k bytes is like \$1.5-2

\$100 for a 1% chance of winning \$1.5-2k. The odds are too bad for my liking.

That being said, the Purple Gift award is nice :P

At a \$100 card you have about a 58% chance of breaking even. So with BOGO you actually have incredibly good odds to at least break even.

I shouldn't have to explain maffs to people. Odds are on the page. Use your brain.

gwiz - June 6, 2025, 2:04 pm

That's a cool award and great little addition. Thanks for the opportunity!

for a 58% chance of breaking even bytes are priced at \$4/1000 tho

I'll never understand the mentality of gamblers. And yeah I said you only sell them in bulk in my post.

I'll definitely be picking this up later today. Will finally be back at my PC lol.

I really need to get a new Ledger for reasons like this.

Had to read this reply to realize it's a BOGO sale and not just for the award, I was blind earlier somehow. Probably was in a rush while at work.

I'm assuming BOGO only applies to the \$100 card option right?

The \$100 min buy is to get the bonus award. You can do it with 1 \$100 card or you can get 4 \$25 cards but in a single invoice you have to buy at least \$100 worth.

Out of 48 scratchers I got 1M Bytes total. The 1M is definitely up for grabs.

I'm assuming you only bought the \$100 tickets since you scratched 48 and have 24 2025 gifts? And none of the \$25 ones?

Sweet.. so you did get the 1m Bytes.. even if not all at once, you still got it. And you got to jump up 4x rows of Awards in one day. That's pretty significant. Not too many people can say they've done that.

If I do end up get anything significant from my tickets(250k+), I'll run some more 100k bytes contest for the people. If not, then I will just continue to use them as Sales Thread bumps.
