Thread: [CHANGE STEAM REGION /KAZAKHSTAN/UKRAINE/INDIA\(FAST\)](#)

Kingdom - June 2, 2025, 2:02 pm

Product description

WORKING!!!

Attention! Before paying, be sure to select the region you need

? HOW DOES CHANGE REGION GO?

? We send you a Steam QR code for authorization, you scan it using Steam Guard "Add Authenticator".

? I create a virtual card personally for your account, after which I make a purchase for a small amount

? After I made a purchase, the region changed and I CANNOT return the purchased game!

? In the correspondence I will provide you with a screenshot with the details that I used when changing the region

(If you receive a block, you send the received details to Steam technical support and it will be removed)

? WHAT IS REQUIRED OF YOU:

- 1 Pay for the goods,
- 2 Transfer data from your Steam account or log in via QR
- 3 Confirm login to your account in the Steam mobile application or Guard code
- 4 Close the Steam client on PC only
- 5 After the actions taken, wait for a response about readiness

Account login methods:

QR Code - We send you a QR code, scan it through the Steam mobile application and confirm your login

Data - Send account data, confirm login via Steam Guard or confirmation code from email

Reserve code - Send data from your account with a reserve code to log in, one of the fastest logins because it does not require additional confirmation

? IMPORTANT INFORMATION!

? After changing the region to Kazakhstan or Ukraine VPN - Not required

? There is no need to disable Steam Guard and we do not recommend doing so

? The region can be changed once every three months

? On new accounts, changing the region is available immediately (there are cases when you need to wait)

? The currency in your account is converted at the Central Bank rate

? To reduce the risk of blocking, it is recommended not to top up your balance or make Steam purchases for at least 24 hours

? You can top up Steam Kazakhstan through QIWI Wallet!

For any query about price and order send pm on the forum
