For all the designers out there:

Set your VPN to the US and use this great extension:

<https://chromewebstore.google.com/detail/free-vpn-proxy-and-ad-blo/hipncndjamdcmphkgngojegjblibadbe>

Then go to this site and generate unlimited high-quality images. It's extremely professional and will really help you out if you're a designer working on ADS Design or similar projects:
