Thread: [Any telegram group for RAT enthusiasts?](#)

•CHESTER• - June 5, 2025, 3:58 am

Do yall know of any discord or telegram group for people who are into RATs/stealers/crypters? You know, skid shit. But no sellers and no malware purists (people who say cOdE iT YoUrSelF). Its so hard to find a group of people with same interests as me.

The obective is to maintain the activity on HF

We have dedicated sections for RAT, Stealers, Crypters and Programming

- [Remote Administration Tools](#)
- [Software Development](#)
- [Keyloggers](#)
- [Cryptography, Encryption, and Decryption](#)

There are few RAT developpers and sellers on the forum, even providing open-source RATs such as <https://hackforums.net/showthread.php?tid=6255192>
Same for crypters, same for stealers.

Besides, with such threads, there will be a bunch of scammers trying to promote their TG or Discord

Forums and chat rooms serve different purposes. With discord/telegram, you tend to get instant feedback and its more social. Here it feels very business like and straight to the point, which has its purpose, but I want the other aspect as well.

You can have that here too.
