Thread: [META VERIFICATION FULL METHOD - For Creators & Onlyfans Models*LIMITED**](#)

Service: Meta Verification for your chosen accounts

Get access to our Telegram group that shows you exactly how to verify any personal IG account with Meta — even new accounts, no waitlist needed.

Bonus method bypass waitlist waiting

The method is still working and easy to follow.

This works great for creators who use a nickname or stage name.

I've used it myself many times and helped a lot of other creators get verified with this guide.

Heads up:

You'll also need a monthly Meta subscription

Plus \$10 per account for some extra steps

Note: Not for business accounts or custom profile pictures.

Why this is a deal:

Onsite, people usually pay \$150–\$300 for verification. Offsite, it's often more.

Our clients pay \$200–\$400 for the same thing.

Price: \$450

Accept Crypto only

When bumping marketplace threads, please don't low quality post. You can also use the built in bump feature using bytes.
