Thread: [How to learn hacking skills?](#)

zgdydk - June 8, 2025, 5:00 pm

My friend is experiencing online harassment???. How can I learn hacking skills to help protect her????

Bastille - June 9, 2025, 1:09 am

Start with OPSec, make her accounts private, search over the internet things about her (OSINT) so she could remove these info, and don't feed the trolls.

Feel free to check this section : [OpSec and OSINT](#) there are many guides and tutorials about privacy online

this is by far the best advice, online harassment has one big flaw, its online. You can private everything and they cant do nothing.

Hope it gets better for your friend OP
