Thread: [Selling a complete hacking and security course at a low price](#)

mitm - June 9, 2025, 5:42 pm

Greetings to you, dear companions

I am MR.w!zArD and our group is proud to be with the hacking and security package in the form of video with the ability to request it in any language as subtitles.

The topics of this package include:

1. Hacking the site with holes sql injection, lfi, rfi, xss, blinde sql injection, buffer over flow
2. Hacking the webcam and phone camera by sending a link and ...
3. Hacking the Android, Windows and iOS operating systems
4. Hacking network and web surveillance cameras
5. Cracking Instagram, Facebook, Twitter, [BRAND NAME REMOVED] accounts
6. How to fix the mentioned security bugs
7. Specialized WiFi hacking

[size=xx-large]

This entire package will be sold for \$850 in any cryptocurrency after sending a portion of the training to the buyer and if he/she is satisfied.
