Sadly most of IOT botnet are just old stuff or mirai skids with RCE

CyberneticsX - June 15, 2026, 1:32 am

You can probably find some on github but best option is to buy one.

You won't get an open source, cross platform botnet that's any good. Go paid or don't expect anything any good.

anyone can tell me where to buy to rent a botnet?

closedeyeknight - August 8, 2026, 7:22 pm

go search UBoat in github. but it's only for windows, or try search mirai. it's IoT, if u r able to code, maybe u can use them.
