That bytes transfer fee and UB fee is SHEEEEEEEEEIT.

I can't see any crews being worth that much anymore. They're on their way out and it's just a UB now. Thanks though.

[mention=3297465] can quote you on the price better than I can. I haven't owned a crew for some months now. It was A LOT. I don't think the transfer costs that much money. I remember it being 10K bytes to do a transfer, but like 50-100K to change the userbar and title of the crew?

Why don't you buy group instead?

The only reason why I was going to buy a crew was to have a Userbar for HF News Team. However, there's only Mix and myself currently. I also didn't realise the high cost of rebranding it so the value isn't there anymore.

Not interested in buying a group. Forums too quiet now.

Thread closed as I'm not longer buying.
