Thread: [Make \\$200 Per Day \(Full eBook Available\) \(Requires Good Social Skills\)](#)

g40g095495 - June 13, 2025, 12:18 pm

Hello, there, members of HackForums! Although my account's username on here is randomized for security, my name is Marcus (great to meet you!), and I have finished writing my eBook on a method I was using consistently for the past 5 years (but I have decided to move on to other things, and am therefore deciding to share it for everyone to utilize). You will make at least \$200 for a full day of working hard at this (or even more money than that), but you do need to have a few characteristic traits, decent computer skills, and good social skills. If you are interested in accessing a copy of my eBook, please download the secure, open source messenger called 'Session' and send a message to my account ID (I will try to get back to you as soon as possible; I am usually quite busy). This communication method is to ensure the security and privacy of our conversation and to help you set up this method, as it is very inconvenient to be talking here on HackForums. I look forward to speaking with whoever is interested in getting help setting up this method and accessing my eBook, but only if you are serious and dedicated. Please do not waste my time if you're not interested. Thank you.

My Session Account ID:

0570c46442f024471a8f1599ff834a0c46b455574500fb93d1978a166a2d1b3e03
