Thread: [Elite Discord Mass DM Service | Hyper-Targeted Growth & Own Your Leads](#)

DiscordAccS - June 14, 2025, 11:23 pm

Stop wasting ad spend. We connect your project directly with thousands of targeted Discord users. Our full-service campaigns handle everything from start to finish, so you can focus on growth.

Our Features & Your Benefits:

Hyper-Targeted Scraping: We extract members from any server, filtering by specific roles (e.g., "Verified Holders") to reach your ideal audience.

Guaranteed High Deliverability: Our advanced system uses proxies, CAPTCHA solvers, and intelligent delays to bypass spam filters and ensure your message lands in their DMs.

FREE Audience Strategy: Unsure who to target? We'll research and build a list of the best servers for your project, completely free of charge.

OWN YOUR LEADS: After the campaign, you can purchase the accounts we used for just \$0.50 each. You get full access to all replies and a permanent list of warm leads.

Personalized & Engaging Messages: We use dynamic text (like usernames) and support rich media (images/videos) to create messages that get high response rates.

Fully Managed "Done-For-You" Service: We handle the entire process for you, from initial strategy and message creation to campaign execution and reporting.

Pricing:

Campaign pricing is customized based on the scale and complexity of your targeting needs.
