Terms of Service – VerifyPulse

By purchasing SMS verification services from VerifyPulse, you agree to the following terms:

Service Description

We provide virtual phone numbers for SMS-based account verifications. Once activated, the number is considered used and non-refundable.

User Responsibility

You are responsible for ensuring the service is suitable for your needs. Misuse of the platform may result in account termination.

Refund Policy

Refunds are NOT issued after successful number activation. Exceptions apply for: Non-receipt of SMS due to technical issues (must be reported within 7 days)

Invalid or unusable numbers with evidence (must be reported within 7 days)

Critical defects that we fail to resolve within 72 hours

Refunds may be subject to a processing fee: 5% (standard), 15% after 1 year, 25% after 2 years, 35% after 3 years.

Data Collection & Privacy

We collect minimal data (email, IP, browser settings, etc.) to provide service. No data is shared without consent, except for legal obligations. Our practices comply with GDPR and U.S. data laws.

Third-Party Services

We use Google Analytics and payment gateways. They may collect data independently under their own terms.

Cookies

Cookies are used to improve your experience. You may disable them in your browser, but some features may not function properly.

Children's Data

Accounts must not be created by users under 13 without parental consent. Violations should be reported to abuse@verifypulse.com.

(Aug 19, 2025 03:02 AM)Kingdom Wrote: [\[CITE\]](#) My honest review after using the service for about two weeks:

VerifyPulse is definitely a good choice as a primary OTP provider.

The service is reliable and offers two providers on the website, so if one doesn't have a number available, you can easily select the second option.

Sometimes you'll notice that the prices for certain countries are higher than those of other OTP providers. However, don't worry! Just reach out to [N604](#) regarding the country and the price that seems high, and [N604](#) will provide you with the best possible solution. He is a professional who knows how to maintain excellent customer service.

Overall, I would rate it a 10/10, thanks to both the service and customer support.

Current options offer only one-time use, if you need a rented number, we can do up to 3 months. Feel free to contact me in private for more questions/info!

It is unfortunate that you don't accept PayPal.
Anyway, good luck with your sales!

The service works well with Uber/UberEats (via Uber service in the Provider's options).

As for GrubHub - we don't have a specific service for them as they do not usually require phone? If that changed, feel free to contact me in private, and we can perform some tests.

We're improving the website these days to show how many numbers are available for each service. Please contact via Ticket in the website or PM here so we can help you get a number for the service you like.

? Important Update Regarding Our Service

Hello everyone,

We want to sincerely apologize for the major inconvenience caused. Unfortunately, due to an unexpected issue with our hosting provider, our entire website and database were deleted.

We've already taken steps to bring the service back online as quickly as possible. However, all accounts and data have been permanently lost.

To make sure no one loses their funds, we're asking all users to share the TXID (transaction ID) of their payment. Once provided, we'll fully restore your balance. On top of that, we'll also cover the amount that was already used, as compensation for this situation.

We know this is frustrating and we truly appreciate your patience and understanding while we work to make things right. Thank you for sticking with us, and we look forward to getting you back on track quickly.

Deeply sorry for the inconvenience. We are not scammers and we take responsibility for the issues that have happened.

Please send me the TXID of the transaction, and sign up with a new username in the site and send me that aswell so i can top your account again with the complete balance.

Thanks, and sorry for the inconvenience!

(Aug 28, 2025 08:25 PM)The Joker Wrote: [\[CITE\]](#) Nice service but I couldn't find your rates before signing up.

Thanks a lot for your feedback! ?

Our rates are shown inside the dashboard after you sign up. The reason is that we work with several providers, and pricing can vary depending on the package and region, and also changes in real-time based on the provider's rates. To keep everything accurate and up to date, we only display the rates once you're logged in.

If you have any questions or need any help with anything, let me know.

It does work for Telegram. I'll suggest to use Provider #2 as he's more reliable and more available numbers however you can check Provider #1 aswell.
Provider #3 will be for US verifications only.

If you have any questions feel free to reach out.

N604 - October 16, 2025, 1:26 am

Added a new Global long-term provider: <https://verifypulse.com/dashboard/longterm>

The minimum rent term is 4 hours and the maximum is 1 month.

If you have bought a number for rent and have not received SMS or OTP in the first 20 minutes, you can cancel the number rental and the money will be returned to your account in full. But if it's been more than 20 minutes and you haven't received sms, it's impossible to cancel the rent.

Used the service recently and everything worked exactly as advertised. SMS came in fast, and the dashboard is simple and clean.

If you're tired of unreliable SMS services, this one actually does the job. Will be using again

because it is really simple to use and the Prices are really good.

I'm sorry that this was your experience.

We have hundred of clients that using the service on a daily basis. We are working with three different providers just for those cases that numbers are either not available or you don't get the SMS.

FYI, it's a standard in this service to try at least 5 to 10 numbers to get one verification, and this is the reason you get a full refund for a number that was not used (SMS not recieved).

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
