Does it 'bypass' Outlook?

Do you have anything to share showing that a .lnk, .exe, or .bat can pass Gmail's scanners? You could create empty files with those extensions, attach them to emails, and Gmail would block them.

Can't understand how u bypass Gmail, Outlook with .exe .bat .lnk files while they are not send able extensions.

CROSTIN12 - June 24, 2025, 9:17 pm

Hi, does anyone here know how to connect 2FA to a website or can bypass it for me?

You're all raising solid points, and you're right. Gmail and Outlook both block common executable file types by default (.exe, .bat, .lnk, etc). But We never said We was attaching raw .exe files directly. There are methods (some well known, some more nuanced) to package or disguise content that can bypass email scanners.

I understand that you don't want to directly show how you do it.

Requested vouch copy.

Yes, service is still available, feel free to let me know what you need. If you want to bypass smartscreen, think about using a better option, exe with dll sideload

smihemstra - December 19, 2025, 3:54 pm

Hi, can it bypass nod32, or only defender? How much time do you need to make an exe crypt? Is vouch copy available?

Yes, after a recent update, it can bypass nod32, but i can only guarantee 100% for Windows Defender.

We're talking about runtime detection of course

On average, i need about 2-4 hours to deliver the crypt.

Sorryy, vouch copies aren't available, but from today until December 31st there is a 30% discount, so you can purchase your crypt now at a lower price

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
