Thread: [Newbie here, appologize for mistakes](#)

mitabrev - June 28, 2025, 1:11 pm

Hi,

I am a newbie on this forums. Working in IT and since I was little interested in computers. Many interesting topics which I will gladly take a look.

Born in 1983, my first computer was ZX Spectrum.

Probably one of the oldest here. :)

If not, share some ZX Spectrum or Commodore 64 stories :)

Welcome to Hackforums, [mitabrev](#) !

We're glad to have you join our community!

As you start exploring, we highly recommend taking a few moments to familiarize yourself with the forum. These resources will help you get off on the right foot:

Etiquette & Rules:

Read through our [Help Docs](#) to understand the forum's rules, etiquette, and features. This will save you a lot of trouble down the line.

Stay Safe! Protect Yourself:

If you plan on buying, selling, or trading on Hackforums, always remember:

Keep all deals on-site. Do not move to Discord, Telegram, or any other platform to finalize deals or discuss them further. If something goes wrong, staff cannot help you unless the full conversation happened here.

Use the [Contract System](#) for any deal, big or small. It documents everything and helps prevent misunderstandings.

Use a [Free Middleman](#) for added security. Scammers hate middlemen for a reason. Sellers can NOT refuse one!

Never send money or items before verifying a user's reputation. Even then, trust should be earned, not assumed.

If you have questions, Be sure to ask [The Academy](#) group! Plenty of members are happy to help.

Enjoy your stay, and again welcome aboard!

That is fascinating, for you to be of your age and you are still in the game , pushing as ever.
That's nice

You are like 42.

The owner of this site is over 55.

So nah, you are not the oldest.

Welcome to HF, old man!

Born in 1983, eh? In that case, hack carefully, because the bones in your fingers are fragile from age-induced osteoporosis, and could break. :-)

Firstly, friend, no need to apologize for mistakes. We all make them. Quote:my first computer was ZX Spectrum

You are in right place. I feel like a lot of us born in different eras could learn some great insight from you. Look forward to seeing you around.

Hi there! Welcome to HF!

warStar1017 - *December 9, 2025, 8:16 pm*

Hi Brother, I hope you are doing well. what happens there? Please let me know there is anything I can help you. Thanks

XFER - *December 10, 2025, 5:26 am*

We all mistakes, no need to apologize. As long as you learn from your mistake is the most important part
