Thread: [How to get rid of my -17 popularity?](#)

•CHESTER• - June 29, 2025, 12:13 pm

I have -17 popularity for asking noob question in market. I say that I am noob, but they don't care. They are so rude and hate customers. We all have to start somewhere. Anyway, how to get rid of this -17?

There isn't a way to get rid of the -17 popularity. You can counteract it by receiving positive popularity by creating HQ posts :)

How am I suppose to do that when I am new to all this? Even when I made what I thought was a HQ post - <https://hackforums.net/showthread.php?tid=6298975> - it barely got any views.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
