Yeah, I didn't know this. I used to just click the convo icon and it would automatically take me there. Then there were thread that they shut down public convo.

I didn't know it's still up.

Omni lowkey wants it gone because it's a hub of DH & drama. He then just moved it more 'hidden' instead of on the frontpage of convo.

If you go to convo now just click the HF group convo icon (next to the house) on the top right.

Yeah, I noticed this now. I it's the icon with 3 humans in it. I didn't know this though.

I just saw where he said that he removed it and a bunch of members were pissed and then he made a poll.

I voted to keep it. I didn't see where everything was heading.
