Thread: [Looking for list of Canadians that have loans with three popular financial companies](#)

ApexForma - July 4, 2025, 5:59 am

I am seeking a list or database of Canadian individuals that includes each person's full name, phone number, email address, and details of the loan they currently have with a number of specific financial companies. If details of the loan are not available, but the list with people just having loans with these companies, that will work also.

I think it's okay to ask for data. I was just asking what exactly you were looking for?
