?????, ???? ????? ?????

I will bend but never break. I will always try to hold the torch .. lighting up the way not blinding but enlightening at my own cost.

My only goal is for birthday to stand for progression.

lets go boys.. no more loss just gain!

Weeds plucked, crops lost but flowers will bloom

I wanted to add more images to the thread, but as we all know, only 15 images can be added, so I had no choice but to stick to that. Normally, 15 images is actually more than enough, but I'm planning to create other threads with more tools...

Currently working on a next level piece of software. Evilginx - but with complete session management and post-authentication automations, example posting a link to my project automatically as soon as anyone authenticates on - let's say Facebook phishing page.

I'm not using software like this myself to target people, I actually run phishing simulation campaigns to train and make awareness of it.

If I manage to complete this project before your birthday, then that will be my contribution towards you my friend.

Anyhow, hope you have a good one, and it's nice to see a bunch of activity towards your celebration. ?

Yes, you can submit multiple entries, because this is a competition where you need to bring value to the forum in order to participate, for example, by posting a high-quality thread like you want to post. In change, if you just post to enter, that's spam, and is not allowed.

Stanley - July 20, 2025, 12:05 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Firstly, I would like to thank everyone who has participated in this massive content creation giveaway.

The competition is now closed. I will be working on a plugin today to determine the winner.. The plugin will do a technical analysis of the thread as a rating, it will then score via SEMRush API and finally add replies and views.. the calculation I will not release but I will make sure it is very fair.

Please understand, there are a lot of HQ entries and this make take today and maybe tomorrow to find the true winner.

Again, Thank you for entering and thank you for making a positive impact not just for my birthday but for the forum in general.

I will close this thread for now and reopen it to announce the winner.

7's Birthday Competition Results – \$1000 Awarded

To celebrate 7's birthday, a \$1,000 prize pool was contributed — \$500 from [7](#) and \$500 from [6](#) — to reward two types of valuable contribution inside Legends.

After reviewing every submission, we've chosen two standout winners:

? Technical Innovation Winner: ITCORP

Recognized for delivering brand-new, self-developed content — including tools, methods, and detailed technical threads that push the section forward. Original, advanced, and built from scratch.

? Informational Thread Winner: JoseMar

Awarded for consistently producing valuable threads built around guides, news, and deep informational content. While not tool-based, this material is original, researched, and boosts the forum's visibility through consistent, high-quality SEO content.

Thanks to everyone who entered — the decision wasn't easy. Many strong threads were posted, and this showed how much quality we have in both directions:

Code • Unique, technically developed content

• Informational content (guides, news, data, SEO-focused)

Both are important. Both earned it.

Whether you're building tools or documenting knowledge — Legends move the forum forward.

Prizes Paid — Congratulations to the Winners

All prizes from the my \$1,000 Birthday Competition have now been paid in full.
Congratulations once again to our two winners:

? [itcorp](#) — Technical Innovation

? [JoseMar](#) — Informational Impact

Your work stood out — one for originality and development, the other for consistency and contribution at scale. You both raised the bar.

To everyone who entered — thank you. Truly.

The amount of effort, creativity, and energy shown across threads was beyond what we expected. Some of you built tools. Some researched. Some grinded out entire threads daily. Some combined all three.

We noticed all of it.

This comp wasn't just about winning — it was about movement.
You've made threads is some of the most active and valuable spaces on the forum.
The content produced will live well beyond this competition.

Whether you won, placed, or just took part — you're part of that legacy.

The prizes were temporary — but what you built here stays. Thank you all.
