Setup contract for a Nintendo 12 month subscription

Edit to update, I have since been added to the family plan and I will let it run its course and see how consistent it is. Thanks OP!

hey there, I see you provide youtube premium on my own account for \$12 a year?

"2. Make sure you have not joined any Google Family within the last 12 months."

How can I find out about this? I had premium before but not sure if he used family method.

Also what is the difference to this?

<https://cheapershopglobal.com/product/youtube-premium-music-activation-link/>

Not sure which one to take.

And also:

"In the near future, if YouTube changes its policy and cracks down on upgrades made from another region rather than your YouTube account's actual sign-up location or removes premium, we are not

responsible for that.

***If your account gets banned by Google, we are not responsible for that."

Youtube already did this 2 months ago. So this is just playing the lottery I think. I buy this and one week later it is gone and my money too.

We have 3 types of YouTube upgrade listed on your site, each method of upgrade is different and warrant also different. The Family Joining method comes with full warranty whereas the Links / Direct purchase does not have any warranty for now.

Ok I see, so I think family joining method would be best because of the warranty. My last premium was not done via family method so I think this would work.

"6. You may need to modify the payment profiles of your Google Account, & Requires a VPN to join the Family."

How will this work? What vpn is needed and does the modification of my payment profile have any impact on other services I use like e.g. Google One?

Also about the payment method, how would this paypal middleman service work? Or otherwise I can pay with ApplePay?

- After purchase I will give u a detailed guide on how to join the family, a free VPN will be provided. You may need to close payment profiles that does not match with the invitation country for joining, after joining u can re enable them. If you have any recurring subscription running, you need to redo your subscription.

- We dont have applepay. You can place an order via paypal and contact middleman with order id, you can get his contacts after order is palced.

About apple pay, on the website it says „pay with telegram stars using payment methods like Apple Pay and Google payment”

But we can use also PayPal. But how does it work with this middleman? I pay to this middleman? So if he is not online, how long will it take to upgrade my account?

You can buy telegram stars with apple pay and pay us. Or You place order > contact middleman > pay middleman > middleman inform us order id paid > process order

Which country is this PayPal account from? I just got the message from the middleman. At first, on your site it says \$8 but he says \$10.50

And next, PayPal wants to charge me an extra \$4 for ff payment in fees. So instead of \$8 it is \$15, double the price advertised

About the PayPal & Fees info we dont have it, it completly depends on the Middleman, If you want the cheapest price use Crypto or Bank transfer of our site.
