Thread: [\[HIRING\] Partner / Side Gig BH Operator for IDN Casino Traffic | Gov & Edu Acces](#)

PatrickBottom - July 11, 2025, 12:11 am

? [HIRING] Partner / Side Gig – BH Operator for IDN Casino Traffic | Gov & Edu Access Preferred

Hey folks,

We're currently expanding operations for our online casino (Indonesian market) and looking to collab with skilled individuals who can assist with traffic acquisition through unconventional methods.

? What we're looking for:

Access or ability to exploit high-authority domains (.go.id / .ac.id / etc.)

Experience with injection, redirection, or cloaking techniques

Familiar with the Indonesian traffic landscape

Bonus if you've previously handled casino/slot niches (esp. "slot gacor", "toto", etc.)

? What we offer:

Competitive payout / rev share

Long-term cooperation for consistent performers

Full discretion and secure ops

Opportunity to scale if traffic quality is solid

? If you've done CTR manipulation, shell installs, or other traffic reroute tactics, and you're confident in tapping Indo-based organic pools, this could be for you.

? DM me on HF with:

1. Brief experience / sample
2. What kind of domains/paths you've worked with
3. Availability + rates
