Thread: [Anyone Cop Themselves Some Goodies With Prime?](#)

ProxyLand - July 11, 2025, 5:41 pm

So, I work at a local Amazon Rural Super Rural Delivery Station Warehouses... and I was able to get free prime as a benefit of working there.

So, I ordered myself a few goodies one being a Trezor Safe 3 @ a discounted price! originally price was \$79 plus tax, but I paid only \$52+Tax! Great deal! I paid and got this discount by paying through amazon, instead of the merchant's own website. And getting a discount for prime itself!

So, I know peak season is here, an Prime is out n about. My Question is to you guys, Did anyone take advantage and get themselves some good discounted items?! ?

This thread's purpose is just here to interact with the community, some something based from my IRL experience. Enjoy guys! Nothing more, Please don't flame anyone in this thread haha. ??

The non-sale price turned out to be the same as the Prime Day price. Just look closely before you buy. <https://a.co/d/a1anyeg>

Hak5 recommends low-capacity basic microSD cards for the Rubber Ducky. Larger cards take longer to be enumerated.

Oooo I see I see. I've heard a little about those tools.

USB stuff If I remember right.

Possibly other attack surfaces too I'd imagine. Lol.

I thought about running a machine killer from a USB in my old job warehouse work with all of the printers lol. It's a good thing I didn't, I would've probably gotten caught thru a camera knowing my luck lol.
