Thread: [What was your first language you learned](#)

Saber - July 16, 2025, 9:40 am

I learned c++ because apparently I hate myself, glad I learned it though, it's opened alot of opportunities for me.

neel364 - July 16, 2025, 3:04 pm

Mother Tongue was is my first language

Tyr - July 17, 2025, 12:27 am

LUA and no it had nothing to do w roblox

SarahRoseLives - July 29, 2025, 3:14 pm

Ruby, something about the readability of the syntax.

Eventually moving on to Python as my primary and now I write in Go and Flutter.

BASIC, must be old. Thought everyone started with BASIC lol

valentines - August 1, 2025, 9:00 am

C++ for me too, mainly because I saw a market for cheat development in a game I used to play a lot back in the day. Honestly, I'd do it a thousand times over.

MXOS3yy73 - August 1, 2025, 11:30 am

Does coding games on one of those casio calculators count? If not then it was python.

genesai - August 1, 2025, 12:41 pm

English :)

Online Sir - August 2, 2025, 7:01 am

Mine was Java - I wanted to make an RSPS when I was really young.

Now I do web development and app development for a job.
