Real, Niche-Targeted, Organic Telegram Growth – No Bots, No Bans

Tired of fake bots and ghost users in your Telegram group?

I offer real human Telegram users, scraped directly from niche-related groups, filtered, and safely added over time.

You don't get filler.

You get users who are active, interested, and exactly in your niche.

? What You Get:

100% real Telegram users

No bots, no inactive junk

Users filtered by:

Niche (e.g., Proxy, VPN, Crypto, Adult, Business)

Country or region (optional)

Active/last seen status

Public usernames

All delivered safely using aged accounts and controlled rotation — no mass-spam methods that get groups banned.

? How It Works:

You give your Telegram group invite link

Optionally give a competitor group (for targeting)

I scrape users from highly active, related groups

I filter and inject the users into your group

You receive updates and optional proof of delivery

Delivery is spread over multiple days for safety and retention.

? Pricing (Fair & Flexible):

For orders under 500 members:

? Fixed price: \$0.40 per member

This ensures premium quality only, nothing less.

For orders between 500 and 999 members:

? Price is negotiable, depending on filters and delivery speed.

For 1,000+ members:

? You get bulk deals, with custom pricing based on niche, region, and delivery time.

The more you order, the more we discuss and optimize everything together.
