? LTESocks.io - Premium 5G/LTE Proxies | Real Devices, Real Speed, Real Results

Why Choose LTESocks.io?

We Own Our Hardware - No Rental Junk

We don't rent devices like other providers. We own hundreds of real mobile phones and tablets across the globe. This means better speeds, less downtime, and rock-solid connections you can count on.

Lightning Fast 5G Speeds

Get 100+ Mbps speeds with unlimited data in most locations. No slowdowns. No data caps. Just pure speed when you need it most.

Real Mobile Devices = Better Results

Our proxy network runs on actual smartphones and tablets, not fake mobile connections. This gives you authentic mobile fingerprints that work better for your projects.

Global Network That Keeps Growing

We have devices in 20+ countries, including the USA, Europe, and more. Multiple phone carriers in each country. We add new locations every week.

Private Channels - No Sharing

Each customer gets their own private proxy connection. Change your IP instantly, set it on a timer, or use our API. Full control, full speed, no sharing with other users.

Works With Everything

Supports all major protocols:

- SOCKS5
- HTTPS
- OpenVPN
- Shadowsocks
- UDP connections
- Advanced stealth features

Easy To Use Dashboard

Manage everything from one simple dashboard. Add money, buy proxies, change IPs, check usage - all in real time. No waiting around.

Full API + Telegram Bot

Connect our proxies to your tools easily with our API. Control everything from Telegram if you want. Perfect for automation.

Real Human Support 24/7

Talk to actual people, not bots. Our support team knows their stuff and can help you fast when things go wrong.

Special Deals for Big Orders

Need lots of proxies? We offer custom pricing for teams and resellers. Let's make a deal that works for everyone.
