Thread: [Selling all kinds of inbox SMTP \(Corp, VPS, AWS, JP SMTPs\) for Hotmail, Gmail, etc](#)

dmitriablov - July 18, 2025, 9:57 am

Hey there!

Looking to boost your email outreach? I'm offering a range of top-tier SMTPs perfect for inbox delivery on platforms like Gmail, Yahoo, Hotmail, Office365, and more. Whether you need Japan .JP SMTPs, AWS, Sendgrid, Corporate SMTPs, or VPS-hosted SMTPs, Hacked/Spammed/Cracked SMTPs, freshly Created and Warmed-up Unlimited VPS SMTP servers, SMTPs for SMTP-to-SMS, SMTP to spoof your mail from inbox, etc we've got you covered.

Each SMTP is rigorously tested to ensure it hits the inbox reliably before I offer it to you. We know you don't like the stress of getting your letter into the inbox, so we help by sending test emails using your HTML letter(s) or text content and all you have to do is send it to us. You can choose from options with both low and high sending limits tailored to your specific needs and daily sending volume.

PRICING

Since the price varies based on the type and sending limits of the SMTP, feel free to reach out for a customized quote. Let me know your requirements, and I'll provide an accurate price based on what you need.

We also offer significant discounts for bulk orders in batches of 10, 100, 1,000, 10,000, and 100,000 SMTPs. This is ideal for those looking to resell or stock up for their existing SMTP stores.

I need to send regular gambling casino marketing mails approx 100k-500k daily mails, how many SMTPS will I require?

And does it inbox to gmail yahoo hotmail or only small regional country domains like gmx, orange etc?

this won't work. the "facebook.com" domain has spf, dmark and dkim records setup so if you try to spoof it the emails will go to spam

It all depends on the SMTPs limit you purchase. If you buy lower limit, you would be needing more SMTPs. We do have single SMTP with very high limit to power this delivery.
