TextNow used to be good. I used it back then for paypals lol was decades ago.

Google Voice requires verification too right now? SMS verification , need to invest a little \$ no?

I recommend SMS-Activate or SMSpool. Both have large selection and decent pricing if you're just using it for quick verifications.
If you need to send SMS, look into Twilio (paid) or TextMe as alternatives.

Hello, I also Need a Service like this.

I Need Phone Numbers to accept a code for the Company I work with. I would also pay for the Method. Can anyone help me?
