Thread: [Entering someone's phone gallery](#)

pinky_promise - July 20, 2025, 5:08 pm

How can I enter or just see someone else's phone gallery without them knowing? I do not have physical access to the devices.

The closest you're going to get is in your dreams. I assume that you don't know what type of phone this person has.

Real power isn't noise — it's precision. Legends don't get noticed. They get results. Sharping loot can always wake a bigger interest, feel free to text me.

If it turns out to be an iOS device it will be next to impossible in most cases. For androids you can try to research on rats.
